

CloudPC Access Instructions

Launch the Windows 365 app from the Windows Start menu on your laptop. If you **don't have the pictured Windows app**, skip to page 2 for installation and initial setup instructions.

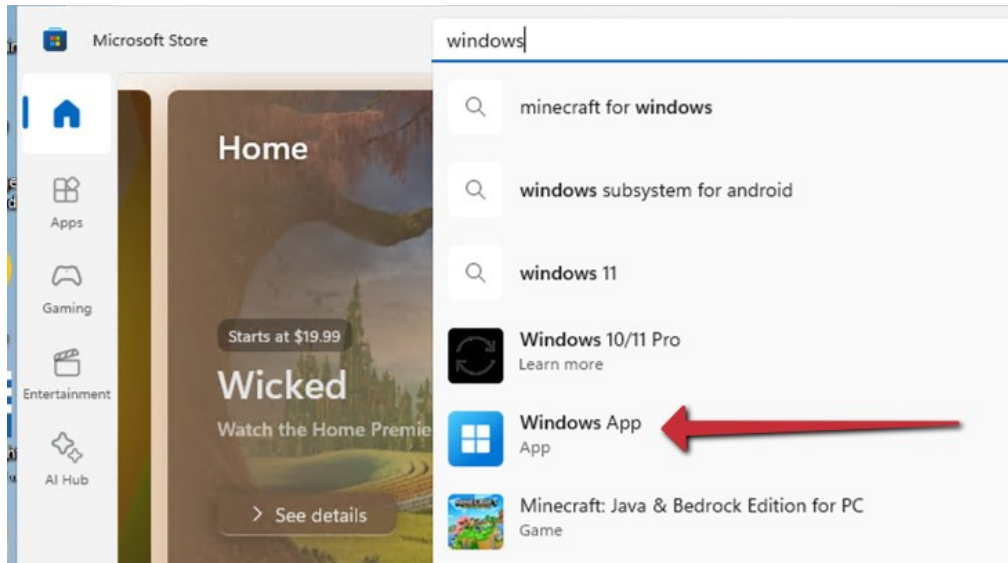

Double click on your Cloud PC to enter your CloudPC session.

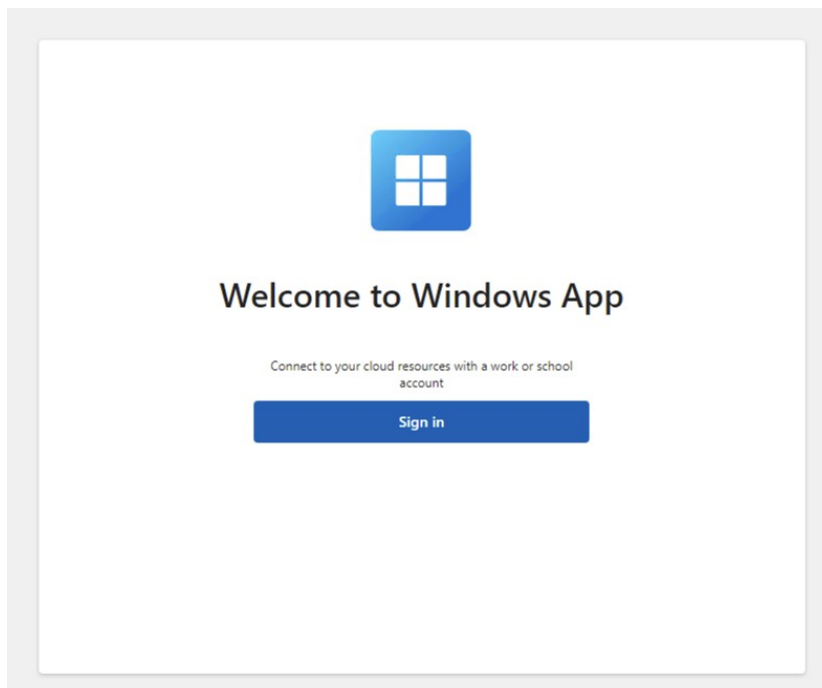

Install the Windows Application and Initial Setup

Open the Microsoft Store on your computer and search for Windows App.

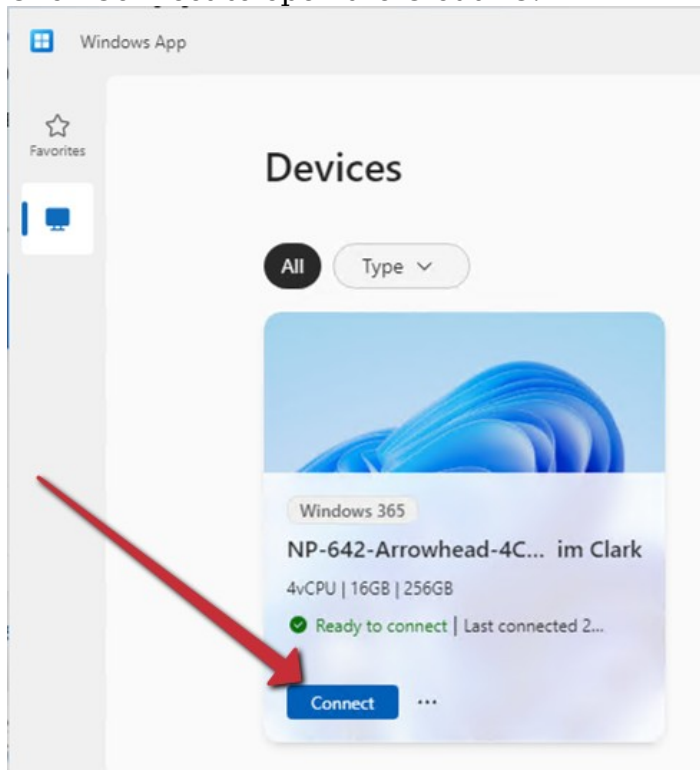

Click the Get button to download.

Once the application has installed, open it and you will be prompted to sign in using your email address.

Click Connect to open the CloudPC.

If you need to extend the screens to multiple monitors, [click here](#) for instructions.
